

Get work done... collaborate everywhere

Invent and create. Share ideas and discuss next steps. Canvas opinion. Ask colleagues to drop in. Call a customer. Schedule a follow-up. Make decisions. Share minutes. Collaborate in the cloud.

Make your teamwork better with Circuit

Collaboration anywhere

Circuit provides easy-to-use, powerful team collaboration capabilities whether as standalone solution or in combination with your existing communication platforms and business apps.

Take a call

Circuit can interoperate with existing SIP telephony infrastructure with users able to place and receive calls through our telephony connectors.

One tool with one view

Circuit is a single app. One virtual meeting space with all the capabilities you need to communicate with your teams.

Use any device

Enjoy the same experience from any device. Access your conversations, communities, and documents online wherever you are.

Create a conference room

Turn any space into an instant HD video conferencing room with the powerful, easy-to-use Circuit Meeting Room solution.

Streamline your workflows

Integrate your workflow and business applications through the Circuit SDKs and APIs.

Natural user experience

Whether audio, video, screen-share or messaging, Circuit's simplicity lets you collaborate as naturally when you're apart as when you're together.

Powerful and contextual search

With Circuit, all content is easy to find. Search and filter by word, label, files or people and get the results you need in seconds.

Stay in control

Prevent potential leakage of sensitive data through shadow IT and stop paying for audio and video conference calls.

Social collaboration

Create online communities and promote cooperation, interaction, opinion and idea sharing across your business.

Circuit is your digital workplace in the cloud.

circuit
by unify

Designed for the way your teams want to work today.

Have a great idea and want to share it in real-time?

Sketch out your idea, share your screen, discuss solutions, make decisions, share and store them in the conversation. All in Circuit.

Have a problem that needs a team response?

See who's online and invite them to an instant conference. Need external experts? They can join too. No plugins required.

On a conference and should be catching a train?

Swipe the Circuit call seamlessly to your mobile device. Pull it back to your laptop when you're at your desk, or get to where you're going.

Need files and data from elsewhere?

Leverage your existing Box, Google Drive, One Drive and Syncplicity services through our native extensions and integrate with business and productivity apps with the Circuit SDK.

Want to be social without the security risk?

Share, download, chat and invite others into the conversation. Circuit is a 'company-run' social sharing app that's built for business.

Missed a meeting and need to catch up?

Recordings incorporate audio, video and screen-sharing - download the documents and see everyone's comments. Don't miss a thing with Circuit.

Whether using your laptop, mobile devices or smartwatches

Circuit is your digital workspace in the cloud

For the first time, everything's in one place: audio calls, video conferences, messaging, screen and file sharing. No flicking between apps or remembering multiple passwords. Everything's shareable, downloadable and auditable. Implementation is lightning quick and integration delightfully simple. And with low-cost per-user packages, Circuit gives you the operational and financial flexibility your business needs.

Integrated into your future

Integrate your web-based processes with Circuit to add a whole new level of collaboration and communication. Add extensions to make Circuit your gateway to hundreds of business apps. Or go further. Integrate Circuit with your IoT supply chain, logistics or stock management systems.

Circuit is a product of Unify.
